EXPERTISE SKILLS

Hard Skills:

- Web Mapping
- Remote Sensing
- Data Visualization
- Data collection
- Cartography

Operations and Logistic:

- Data Analysis
- Geo-referencing
- Digitization
- Geospatial Data Analysis

Tools and Software:

- ArcGIS
- QGIS
- ERDAS Imagine
- ArcPy
- PCI Geomatica
- GEE

LANGUAGE

Exploring technologies

01

PROFESSIONAL PROFILE

Proficient in ArcGIS, QGIS, ERDAS Imagine, Google earth engine and programming language like Python. Have hands-on experience in spatial analysis, urban land cover change detection, agricultural crop monitoring. My strong analytical skills, attention to detail, and ability to communicate technical concepts make me a valuable asset for innovative geospatial solutions. Eager to collaborate and contribute to impactful projects in the geospatial industry. Keen to bring fresh perspectives and innovative solutions to the field.

02

EDUCATION

Masters in Remote Sensing and GIS (2023 - 2025)

Institution: JIS UNIVERSITY

- Pursuing M.Sc in remote sensing and GIS
- Department of Earth Sciences and Remote Sensing

B.A in Geography (2019 - 2022)

Institution: Hooghly Women's College

- Academic excellence in Geography (Remote Sensing and GIS)
- CGPA : 8.11

Higher secondary (12th Grade) (2019)

Institution: Binodini Girls' High School

- Percentage: 82.2%

secondary (10th Grade) (2017)

Institution: Binodini Girls' High School

- Percentage: 81.14%

03

EXPERIENCE

- As a fresher and current M.Sc. student in Remote Sensing and GIS, I have engaged in various academic projects, including analyzing land use changes using ArcGIS and collaborating on environmental resource mapping with QGIS, ERDAS Imagine.
- My coursework has equipped me with a solid foundation in GIS technologies and data analysis, while my active participation in the academic groups has enhanced my skills.
- Currently engaged in dissertation focused on Glacier research. [Response of rock glacier in changing climate: A study on Bhaga Basin, Himachal Pradesh, India.]
- Eager to apply my knowledge and skills in a practical setting through future opportunities.
